TypeScript, JavaScript, HTML5, CSS3, SQL, Python, PHP, java, C, C++

Frontend Technologies:

Next.js, React, Material-UI, Tailwind CSS, Bootstrap, Sass, HTML/CSS, Redux toolkit

Version Control & Tools:

Git, GitHub

Design Tools:

Figma

EDUCATION

Faculty of Computer Science and Artificial Intelligence

Helwan University, Cairo, Egypt

Expected Graduation: February 2026

- **Current GPA:** 3.56
 - **Relevant Coursework:** Software Engineering, Algorithms , Operating Systems, Data Structures ,Web Development, Databases, etc.
-

CERTIFICATIONS

- **Front-End Development Diploma** – Route IT Training Center
[View Certificate](#)
 - **Redux in JavaScript and React** – Coursera
[View Certificate](#)
-

PROJECTS

1. Personal Portfolio Website

Technologies Used: Next.js, Tailwind CSS, Flowbite, Figma, React Type Animation

- Developed a modern, fully responsive personal portfolio to showcase web development skills and projects.
- Utilized Tailwind CSS components through Flowbite for a consistent UI and improved development speed.
- Integrated libraries such as React Type Animation to enhance interactivity and user engagement.

2. E-Commerce Website

Project link: <https://ecommerce-xqwr.vercel.app/>

Technologies Used: React, Tailwind CSS, Real APIs, Payment Gateway Integration

- Built a fully responsive e-commerce platform with advanced product filtering, real-time search, and full authentication.
- Integrated a real payment gateway for secure transactions and worked with live APIs for real-time product data.
- Implemented state management to ensure smooth cart operations and seamless user experience.
